## Faithfulness

We must remain Faithful in all aspects of our lives no matter what the cost. For all of our days we will be confronted with issues that challenge our faith. You cannot let your faith falter. You must stand strong, remember and know who you are, that God loves you and that God is for us so nothing rising against us will prosper. Those realizations alone will give you the strength you need to remain abundant in Faithfulness regardless of the challenge and regardless of how impossible it may appear to be. **Always strive to increase your Faithfulness while enjoying a divinely unique blend of country apples and fresh-ripened black cherries.**

## Patience

The world is a hectic and fast-paced place full of haste and waste. Our schedules and responsibilities are overflowing from one day to the next with no end in sight. Tension, impatience and irritability are natural responses to these demands. Patience gives us the opportunity to slow down and unwind in our minds, to adjust our perspective on things and invoke other fruits and virtues. ## Goodness

You are reminded of the Goodness of God with every glimpse you take of life every minute of the day. It's easy to forget the goodness of God when the troubles of life seem to overshadow it. Stop. Close your eyes, take five deep breaths, then open your eyes and behold the goodness of God all around you. Notice the shining sun resting on the clouds, the clothed and decorated fields, the birds of the air, the whispering breeze... children... family... the fact that you have life. These things are enough to bring you back to knowing that God is good to us all. **Experience a new kind of Goodness with a unique blend of peach, plum, Italian lemon oil and Japanese cherry blossom.**

## Kindness

Immerse yourself in the Spirit of Kindness. Kindness is an extremely powerful act. Kindness is passive yet aggressive. Kindness kindles hope and acceptance. Kindness is disarming and calming. Kindness peers deep into life's inflicted wounds of the heart and soul and invokes healing. Kindness softens the heart. No matter what happens to you, when you are kind in response or approach that act demonstrates the comfort, forgiveness, love, peace and mercy of God through you. **Express more Kindness towards others while enjoying a unique fragrance blend infused with fresh red raspberries, black raspberries and a hint of vanilla.**

## Gentleness

A gentle wind, a gentle touch, a gentle smile. Gentleness in essence is a piece of heaven descending on our lives in a subtle yet powerful way. To experience something that is truly gentle and tender in touch, sound, smell, sight or taste is to experience something truly incredible, memorable and indescribable. With gentleness and tenderness is how a God-fearing and loving parent interacts with his or her children and how a soul mate interacts with his or her soul mate. Gentleness is a significant component of compassion and speaks the language of God's love without saying a word. **Experience a new kind of Gentleness with a unique fragrance blend infused with fresh picked strawberries, mangoes and five different types of melons.**
